To Interested Transportation Stakeholders:

Attached please find the fourth annual report for MTC Discretionary Funding for FY 2005-06. This report reflects the allocation actions and final programming for FY 2005-06. For federal funds, the fiscal year refers to the year the federal apportionment was made available and covers the period from October 1, 2005 to September 30, 2006. All other fund sources reflect Commission allocation actions or programming commitments for the state fiscal year from July 1, 2005 to June 30, 2006.

For all fund sources, the amounts shown represent the committed use of each type of funding as of the end of the fiscal year. The actual drawdown of the funds could take place during the same fiscal year or over several subsequent fiscal years. Most drawdown is on a reimbursement basis.

The 17 MTC Discretionary Fund Sources covered in this report include:

Federal
